School Report.

*The Board of Education would respectfully submit the following
Report to the Citizens of Barrington :*

It is a true saying that time waits for no man, and now as we look back over the year and sum up the amount of work accomplished, it is with this feeling that while there are many things left undone, on the whole we feel that the teachers have tried for their scholars and a fair amount of knowledge has been gained by them.

It is a growing conviction, confirmed by the experience of some of the best educators of our country, that the teachers who, consistent with good order, can allow the greatest freedom to his scholars, having impressed upon their minds at the outset that individual freedom belongs only to lines of right action and orderly deportment, and can direct them by the force of his own mind and character, thus appealing to the higher and nobler part of their natures, will not only secure their esteem but have the satisfaction of seeing such a development of moral qualities as restraint through fear cannot possibly procure ; but it should not be overlooked that the combined influence of home and school are necessary to accomplish this.

The efforts of the teacher ought always to be encouraged by the personal interest of the parents in the methods of instruction employed in our schools. This can best be expressed by visiting the school, and we strongly urge it as a duty devolving upon our citizens, that they may become better acquainted with the progressive work, and so be prepared to justly consider whatever is necessary for their proper maintenance.

Believing that we have the confidence, and still soliciting the hearty coöperation, of the entire district, we submit this report.

G. B. HALEY,	}	School Board
